Lab - Research Laptop Specifications

Laptops often use proprietary parts. To find information about the replacement parts, you may have to research the website of the laptop manufacturer.

Before you begin this lab, you need to know some information about the laptop.

Your instructor will provide you with the following information:

Laptop Manufacturer:	**Dell Inc.**
Laptop Model Number:	**G3 15 3579**
Amount of RAM:	**32 GB**
Size of the Hard Drive:	**1 TB 5400 RPM HDD**

Answer the following regarding your laptop model.

1. Use the Internet to locate the website for the laptop manufacturer. What is the URL for the website?

   https://www.dell.com/en-ph

2. Locate the service section of the website and look for links that focus on your laptop. It is common for a website to allow you to search by the model number.

   List the links you found specific to the laptop and include a brief description of the information in that link.

   ***Dell G3 3579 Product Support** & **Dell G3 3579 – Drivers & Downloads** – Provides drivers, manuals, specifications, diagnostics, and other support information for the laptop.*

3. Briefly describe any service notices you found on the website. A service notice example is a driver update, a hardware issue, or a recall notice for a laptop component.

   Service Notice: Dell has BIOS updates for the G3 3579 that fix bugs, improve system stability, and address security issues.

4. Open forums may exist for your laptop. Use an Internet search engine to locate any open forums that focus on your laptop by typing in the name and model of the laptop. Briefly describe the websites (other than the manufacturer website) that you located.

   Reddit – Dell: A forum where Dell G3 15 3579 users discuss issues such as charging, overheating, BIOS, and upgrades.
   https://www.reddit.com/r/Dell/comments/dqzv99/dell_laptop_g3_3579_slow_performance_for_everyday/
