Step 2: Based on your research, which mobile device would you select? Be prepared to discuss your decisions regarding the mobile device you select.

I would select the Samsung Galaxy S26 because it is well-suited for gaming, graphics, and everyday use. It offers powerful performance, strong graphics capabilities, a smooth 120 Hz AMOLED display, a high-quality camera, and a good battery capacity. I also prefer Android because it provides more flexibility and customization, making it a better choice for both gaming and daily activities.
